ANOTHER WORLD IS POSSIBLE!

Our isolation from each other, and our reliance on our political system to meet our needs, is what fuels our feelings of powerlessness.

While our present moment is dark, this is the perfect time to create a brighter future together. The more politicians choose corporate money over working people's best interests, the more we need to redirect our energy into our own local communities and workplaces.

The hardest part is getting started. The key is knowing that you don't have to do anything alone. Our survey proves that you are surrounded by people who care about the same issues as you do! Find those people in your neighborhood, and start building networks of mutual care and people power.
